

### Security

ISJIT takes the security of your information very seriously. We take every measure to ensure your personal information is protected.

- The online system uses “multi-factor authentication” to secure the data and integrity of our participants’ information and requires a regular change of user-passwords.
- The participant call-center provides recorded toll-free trading lines and fax lines for trade placement, research inquiries, requests for money movement, and transfers.

*At the September 29 ISJIT Board meeting, the Board approved minor changes to ISJIT’s Investment Policy. The changes were primarily made to reflect ISJIT’s rating from Standard & Poor’s. No changes were made to ISJIT’s investment guidelines. To review the updated Policy, visit ISJIT’s website at [www.isjit.org](http://www.isjit.org).*
